

CONSTRUCTION:

These great looking Archimedes Consoles are made of sturdy, high grade Aluminum. They are assembled with stainless steel machine screws and plated Pem Nut threaded inserts. Full width access panels facilitate the connection of pneumatic & electrical accessories. Supplied with rubber grommet(s) & stainless steel self-drilling / self-threading screws for floor mounting.

CUSTOMIZATION:

Hundreds of top plate models are available in Mirror Finished Stainless Steel or Brushed Aluminum. They can be customized, engraved, assembled, and supplied ready to install with all the valves & switches required for your specific application, including the necessary hardware such as fittings, contactors, breakers & terminals. Top plates are fully interchangeable between pedestal mount and floor mount consoles.
